TrueVerify™

Conveniently Verify IDs with a Mobile Device

Veridocs browser-based mobile application verifies IDs using a mobile device to extend ID management across the venue or for use in areas with limited space such as entryways and lobbies. Use this module in conjunction with Veridocs standard workstations equipped with TrueAuthentication® technology and ID scanners for full authentication. Documents scanned with TrueVerify are included in Evolution for reporting and compliance.

- Store data within your firewall for added security
- Maintain records for audit trail
- Access support 24/7/365 with US-based services

Get the Power of Veridocs Throughout the Entire Casino

Use the mobile ID verification module in areas with limited space while ensuring the patrons are screened against selected lists. Keep a record of all mobile scans for audit compliance.

Mobile Verification

Access the results from Evolution software from your browser on your phone or mobile device.

DOWNLOAD

Scan the front and back of the ID to confirm the features.

DRIVER LICENSE
ENHANCED
ID: 123456789-005
NAME SURNAME

Get real-time results on age verification or screen against watch lists.

Feel confident to admit or reject the patron from accessing your facility.

Welcome

TrueVerify™ is one of six modules in the Evolution platform.

VERIDOCS™ EVOLUTION
