

TrueDoc™

Easily Store Documents
Under a Patron's Profile

John Doe

The Veridocs document imaging module allows signature cards, applications and other important documents to be stored in a TWAIN-compliant interface. Import files or scan documents and store them securely under a patron's profile to save your staff time when accessing required information.

- ✓ Store data within your firewall for added security
- ✓ Maintain records for audit trail
- ✓ Access support 24/7/365 with US-based services

Elevate Your Customer Service

TrueDoc streamlines customer service by advancing your ID authentication and watch list management. Your staff can quickly retrieve important documents saved under a patron's profile while ensuring a patron's ID is valid and checking flags on any lists.

Document Imaging

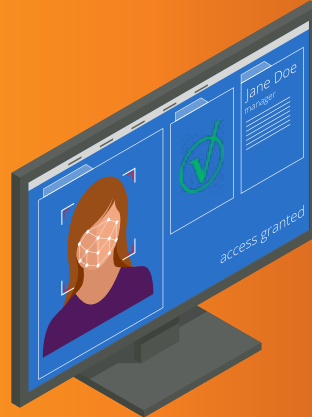

Scan or import documents to create a patron's profile.

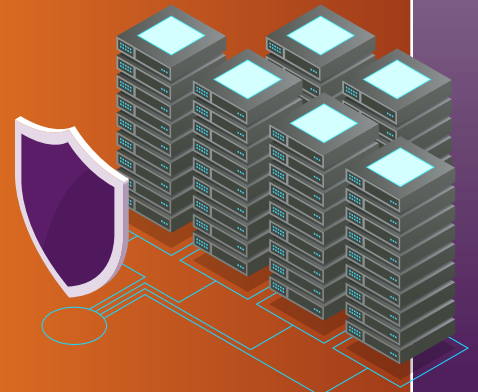

Easily retrieve ID scan, credit documents, signature cards, markers and more.

Securely store information and documents under their profiles.

All documents are retained within your firewall.

TrueDoc™ is one of six modules in the Evolution platform.
